THE PERFECT VIEW CUSTOM GLASS

CUSTOM GLASS. PERSONAL DESIGN.

Your shower. Your way.

Bring us any custom glass shower idea. From a single door to a fully tailored enclosure, The Perfect View develops the glass layout around your room, your finishes and your vision.

BUILT AROUND YOU

Hinged and sliding doors

Corner and return panels

Tub-side enclosures

Walk-in glass screens

Unusual openings and angles

Choose the glass, hardware and details that make the space yours. We work with homeowners, designers and contractors across NY, NJ and CT.

YOUR VISION. YOUR STYLE. YOUR VIEW.

Custom fit, from the first conversation to the final glass.

Warm hardware & statement spaces 15-18

Tailored layouts & selected installations 19-24

Your project & glass care 25-27

The photographs in this catalog show TPV installation work and glass design possibilities. Many examples feature low-iron glass. Your final layout, glass type and hardware are selected for your project.

GLASS SELECTION

Clarity is a choice.

Low-iron glass reduces the green cast associated with ordinary clear glass, allowing tile, stone and hardware colors to read more naturally. It is a signature option in the TPV shower collection.

LOW-IRON GLASS

An exceptionally clear look for light stone, detailed tile and open sightlines.

STANDARD CLEAR GLASS

A clear-glass option with a more noticeable green hue, especially at the edges.

OTHER GLASS POSSIBILITIES

Frosted or acid-etched privacy glass. Grey or bronze tints. Textured and patterned glass. We help select the right look for the intended use and available hardware.

Common shower glass thicknesses include 3/8 inch and 1/2 inch. Thickness, safety-glass requirements and the final specification are determined for each enclosure.

Comparison graphic supplied by TPV; illustrative, not a color sample.

INCLUDED WITH TPV SHOWERS

Beautiful glass. Easier care.

TPV shower installations include Invisible Shield® PRO 15 protective glass coating.

REPEL	A transparent barrier helps water and contaminants release from the glass.
PROTECT	Helps resist mineral staining and surface deterioration while preserving clarity.
MAINTAIN	Less stubborn buildup makes routine cleaning simpler. Regular care is still required.

UP TO 15 YEARS

LIMITED MANUFACTURER'S COATING WARRANTY

Protection against permanent staining or visible corrosion is subject to correct application, care, registration and the manufacturer's terms. This is a coating warranty, not a blanket warranty on the enclosure.

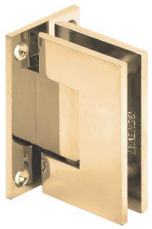

Product and warranty details: glasscareexperts.com/our-guarantee/

HARDWARE, CONSIDERED

Hinges & handles.

TPV sources shower hardware from CRL and FHC. We coordinate hinge type, pull style and finish with the glass layout.

HINGES

CRL Geneva wall-mount hinge

GEN037 series

FHC Glendale wall-mount hinge

GLENF1 series

FHC Glendale glass-to-glass hinge

GLEN180 series

HANDLES

CRL tubular back-to-back pull

BM6X6 series

FHC square back-to-back pull

PHSQ6X6 series

FHC square ladder pull

SQLH family

Finish directions include matte black, chrome, brushed nickel, brushed or satin brass, custom antique brass, and gunmetal or bronze. Custom finishes are reviewed separately.

Representative styles; images not to scale. Final model, finish and glass preparation are project-specific.

Product images: CRL CRL23R, pp. 137J / 242J; FHC FSH24R, pp. 15 / 16 / 56 / 58.

SLIDING ENCLOSURES

Clean lines. Smooth access.

A black rail gives clear glass an architectural edge.

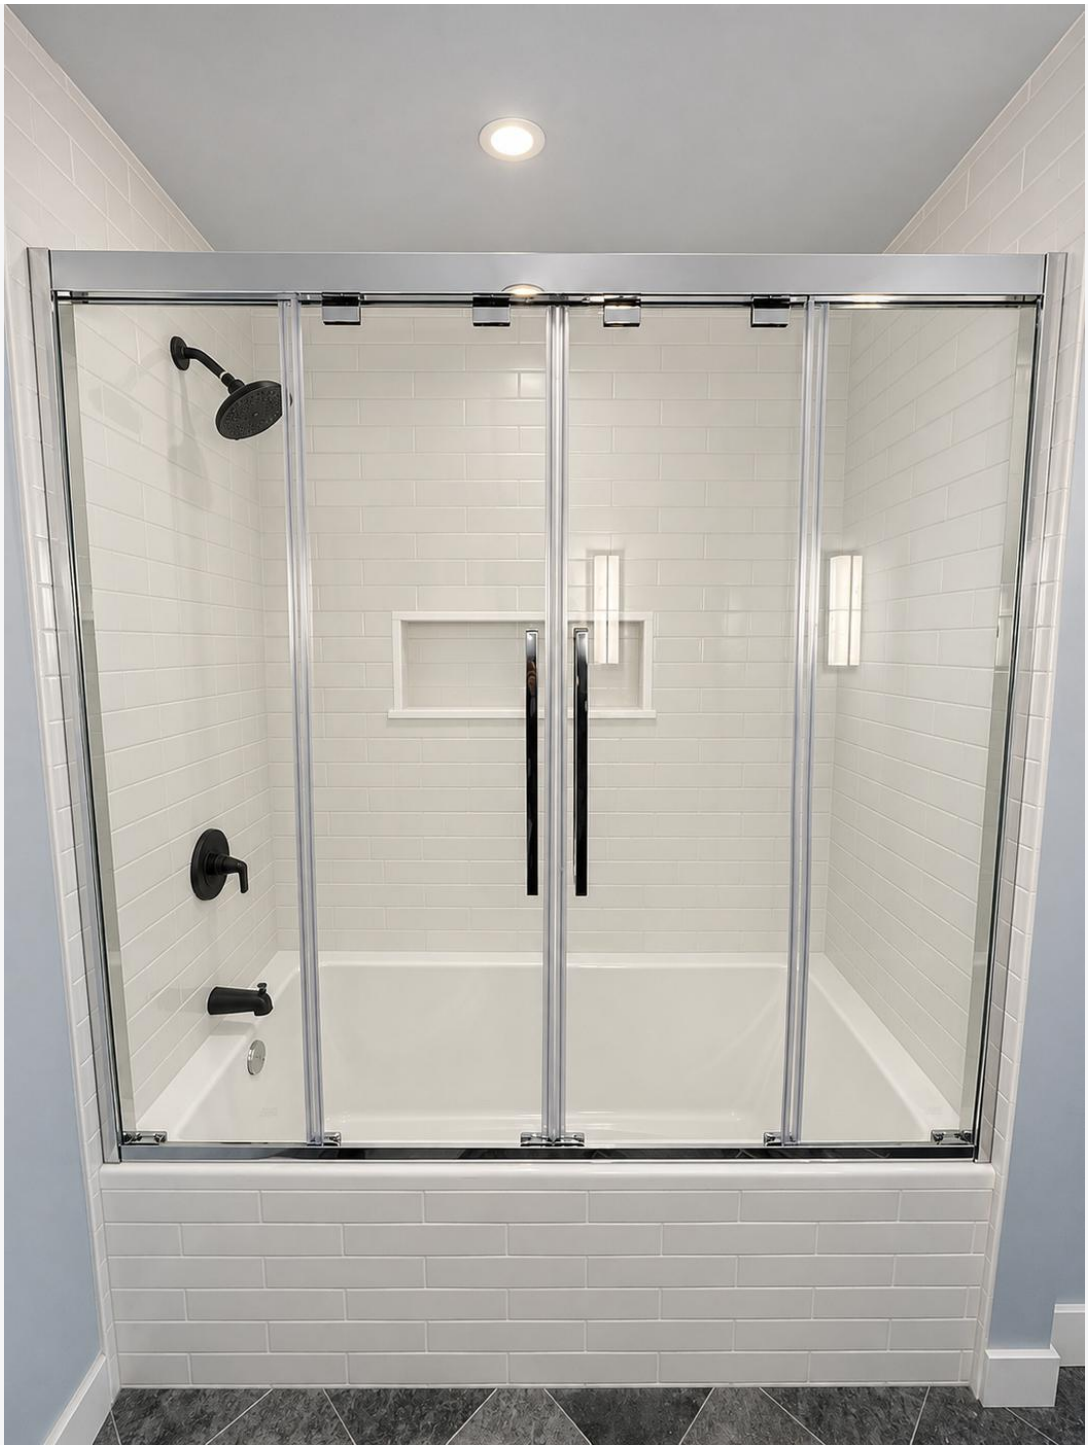

A custom sliding enclosure with a fixed panel, black hardware and a clear view of the tile.

TUB ENCLOSURES

Glass over the tub.

A bypass layout keeps the bathing area visually connected.

A sliding tub enclosure with coordinated rails, vertical pulls and transparent glazing.

HINGED DOORS

A tailored entrance.

A simple glass door can complete a distinctive opening.

A custom hinged door with a combination pull and towel bar.

SELECTED INSTALLATIONS

Black accents. Clear views.

Frameless glazing lets the room's materials lead.

A hinged entry paired with dark hardware.

A compact shower opening with clear glazing.

MADE TO YOUR SPACE

Custom dimensions, glass selection and coordinated hardware bring the full design together.

CORNER ENCLOSURES

Follow the room.

Custom glass can turn a corner without closing off the view.

A perpendicular return panel and hinged entry define a corner shower.

SELECTED INSTALLATIONS

Corners, carefully resolved.

Panel placement responds to the footprint of the bathroom.

A sliding corner enclosure with polished details.

A bright corner layout with coordinated hardware.

MADE TO YOUR SPACE

Custom dimensions, glass selection and coordinated hardware bring the full design together.

TUB-SIDE DESIGNS

A connected bath.

Clear glass creates separation while preserving light and sightlines.

A custom enclosure arranged beside a built-in tub.

SELECTED INSTALLATIONS

Glass beside the bath.

Thoughtful layouts connect the shower with the wider room.

Clear glass keeps decorative tile in view.

A walk-in shower with a freestanding tub nearby.

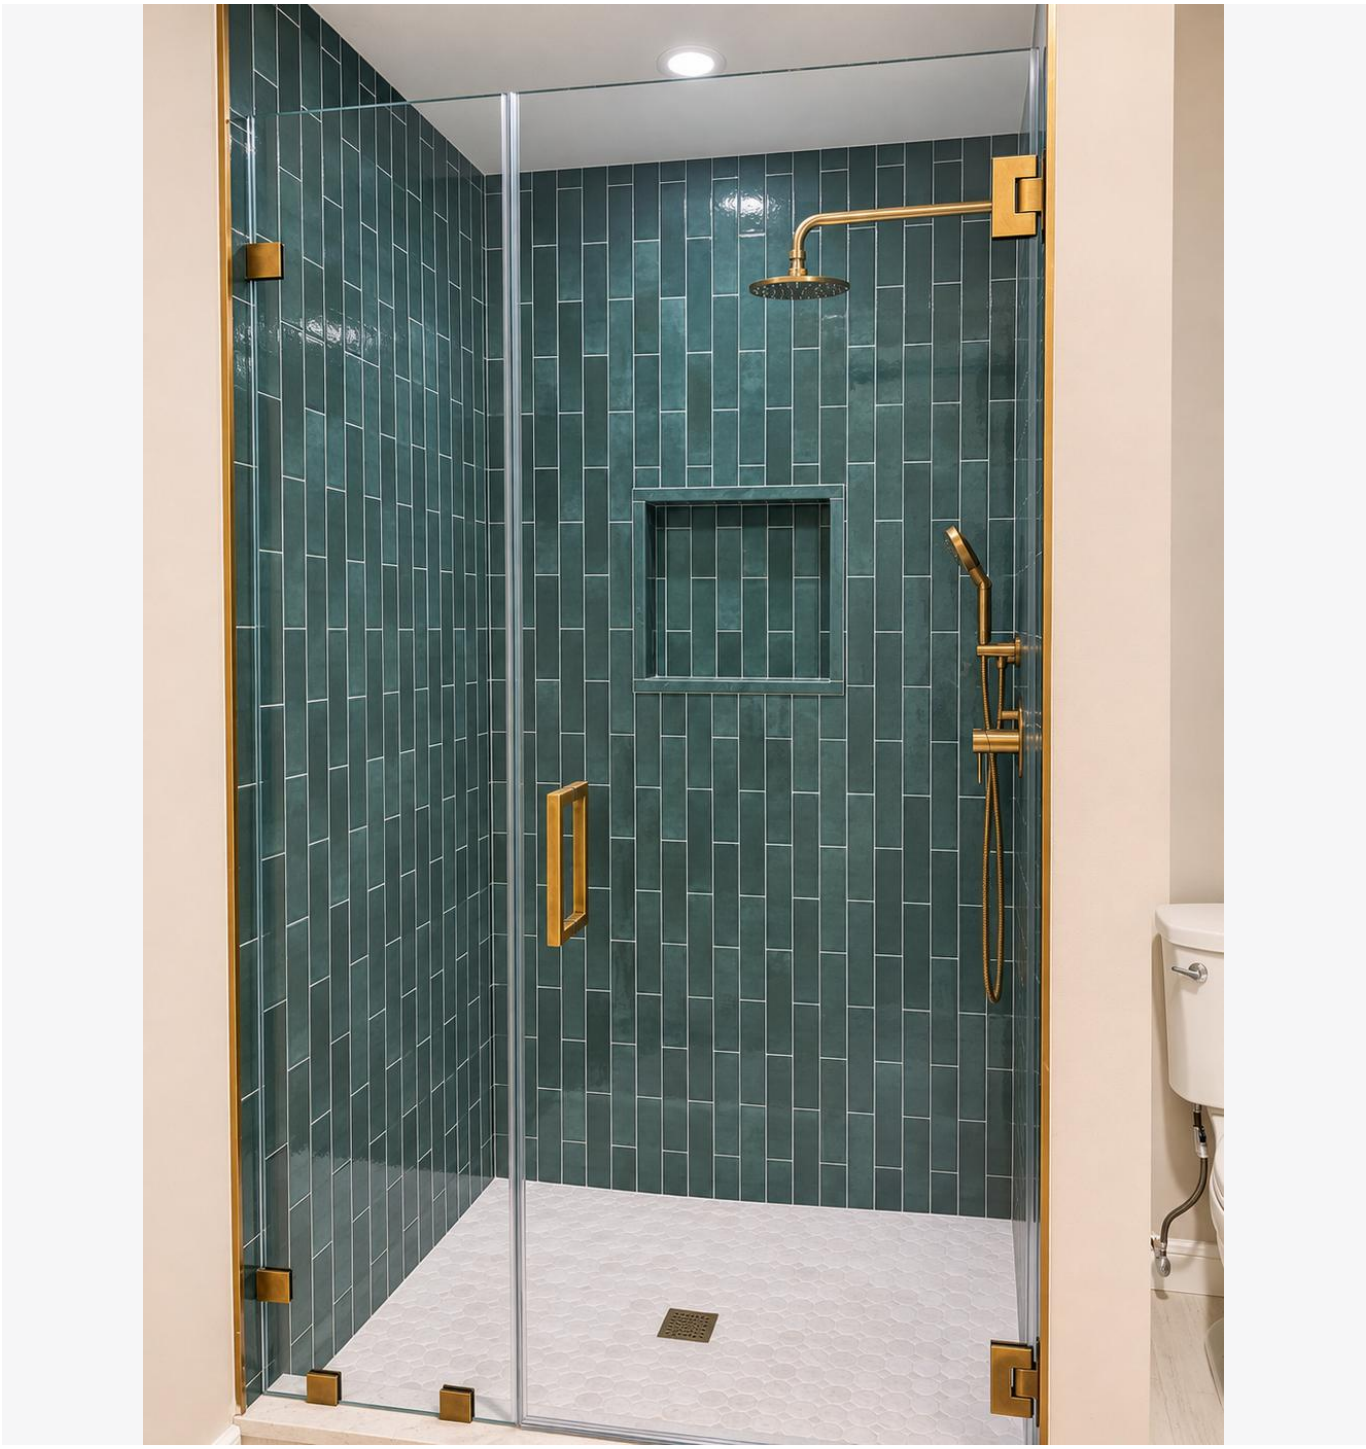

MADE TO YOUR SPACE

Custom dimensions, glass selection and coordinated hardware bring the full design together.

WARM-METAL DETAILS

Warmth in every detail.

Antique brass gives clear glass a rich, considered accent.

Warm hardware against deep tile: a frameless hinged shower design.

SELECTED INSTALLATIONS

Warm finishes. Quiet luxury.

Refined hardware can bring the whole palette together.

A hinged entry with warm-metal details.

A sliding system with a soft metallic finish.

MADE TO YOUR SPACE

Custom dimensions, glass selection and coordinated hardware bring the full design together.

SELECTED INSTALLATIONS

Let the tile speak.

Clear glazing brings saturated color and texture into focus.

Deep blue tile with warm hardware.

A mosaic statement wall behind frameless glass.

MADE TO YOUR SPACE

Custom dimensions, glass selection and coordinated hardware bring the full design together.

SELECTED INSTALLATIONS

Stone, light and glass.

Minimal glass lines leave room for the materials.

A clean-lined hinged enclosure with dark accents.

A defined sliding rail against dramatic veining.

MADE TO YOUR SPACE

Custom dimensions, glass selection and coordinated hardware bring the full design together.

SELECTED INSTALLATIONS

Made for the opening.

Architectural details call for a custom response.

An enclosure arranged around an arched architectural detail.

A bright glass layout beside a built-in tub.

MADE TO YOUR SPACE

Custom dimensions, glass selection and coordinated hardware bring the full design together.

SELECTED INSTALLATIONS

Distinctive spaces. Custom glass.

Multiple panels bring separation without visual weight.

Frameless glazing around statement stone.

A tailored multi-panel bathroom installation.

MADE TO YOUR SPACE

Custom dimensions, glass selection and coordinated hardware bring the full design together.

SELECTED INSTALLATIONS

Open, light-filled layouts.

Sliding systems define the shower while keeping the room open.

A dark sliding rail in a generous bathroom layout.

A black slider against a marble-look finish.

MADE TO YOUR SPACE

Custom dimensions, glass selection and coordinated hardware bring the full design together.

WARM-METAL COLLECTION

A refined top line.

A coordinated sliding system complements pale stone.

A custom slider with warm-toned hardware and clear glass.

RECENT INSTALLATIONS

Minimal hardware. Maximum view.

Dark accents define the glazing without hiding the room.

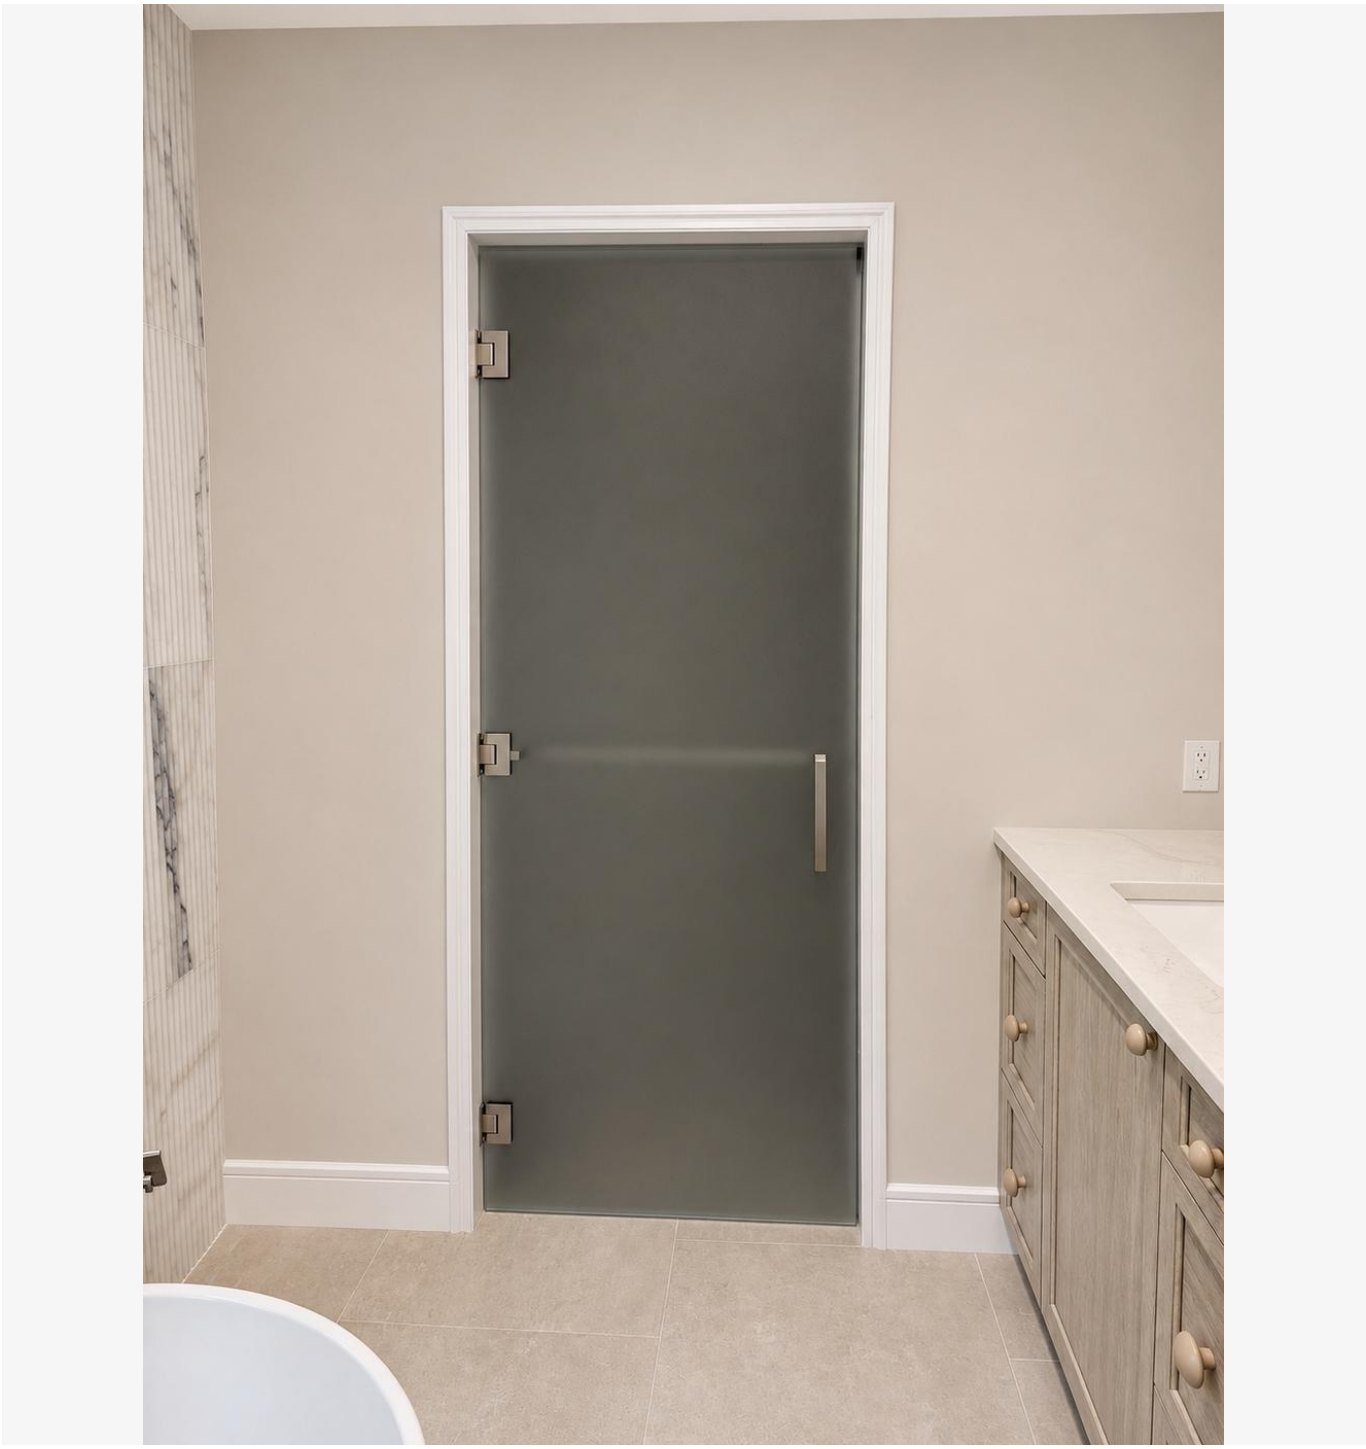

A frameless hinged entry with a fixed panel and coordinated black fittings.

PRIVACY GLASS

Privacy, on your terms.

Glass choices can balance light, openness and privacy.

A frosted-glass door in an adjacent bath space illustrates an alternative to clear glazing.

FROM IDEA TO INSTALLATION

A clear path forward.

01

SHARE YOUR SPACE

Send photos, rough dimensions, plans and inspiration. Tell us how you want the door to work.

02

DEVELOP THE DESIGN

We discuss the layout, glass, hardware finish and practical details of the room.

03

MEASURE & CONFIRM

Final field measurements and the approved configuration guide fabrication.

04

FABRICATE & INSTALL

Your glass is made for the project, installed and finished with protective coating.

05

HAND OVER WITH CARE

Receive care guidance and the applicable coating warranty and registration information.

LIVING WITH COATED GLASS

Keep the view clear.

Clean gently.

Use a soft cloth and a compatible ammonia-free cleaner, such as Unelko REPEL.

Avoid abrasion.

Keep gritty cleaners, scrapers, strong chemicals and abrasive pads off coated surfaces.

Dry lightly.

A soft towel can remove residual moisture. Follow Unelko's current maintenance instructions.

UNDERSTAND THE COATING WARRANTY

Register with Unelko and retain application records. The limited warranty protects the registered original owner and is not transferable. Exclusions include misuse, neglect and unsuitable cleaning. The manufacturer's stated remedy is coating product for reapplication; associated labor and equipment are excluded.

The complete, current manufacturer terms govern coverage. Ask TPV for the coating application and registration details for your installation.
